

**The Minerals, Metals & Materials Society (TMS)** extends its congratulations to the Deutsche Gesellschaft für Materialkunde on the occasion of its 100th anniversary. Our societies share a common vision for the global materials community, and DGM is an honored and trusted partner in making that vision a reality.

TMS's collaboration with DGM began in 1993 as part of a greater effort to establish collaborative ties with international societies. This relationship has grown steadily over the years, culminating in the signing of a Memorandum of Understanding between both societies in September 2018. Our agreement outlines a path to provide greater collaborative opportunities between the volunteers of both societies in service to the global materials science and engineering community. This will be accomplished principally through reciprocal programming and participation in the TMS Annual Meeting and Exhibition, DGM's Materials Science and Engineering (MSE) conference, and joint professional development activities.

**TMS ist stolz auf die Partnerschaft mit der DGM und wir freuen uns auf viele zukünftige Jahre der Zusammenarbeit. Herzliche Glückwünsche!**

*ABOVE: TMS hosted the Deutsche Gesellschaft für Materialkunde (DGM) at a meeting in Frankfurt, Germany, in 2013. Shown, left to right, are Alexander Scott, TMS executive director; Wolfgang Backer, DGM board member for international activities; J. Keith Brimacombe, TMS president; Peter Schepp, DGM managing director; and Michael Koch, a member of the TMS International Affairs Committee.*
